

New Team Registration Steps

Here's how to get your team set up in PlayMetrics:

1. Log in to your PlayMetrics account- or click on club programs and find the league registration that you are looking for.
2. Click the registration
3. When registering, select "You want to register a team."
 - a. This appears in the upper right corner in small print
4. Complete the registration steps.

You can choose to:

- Pay in full now, or
- Pay in full on start date – this gives everyone time to collect funds from teammates.

(Unfortunately we can't collect partial payments- so PLEASE DO NOT register unless you know you have a team)

Once you register your team, you'll receive a team code.

Please share this code with your players — they'll:

1. Log in to PlayMetrics
2. Go to Club Programs → click on the league registration link.
3. Select "Register as a player"
4. Enter your team code when prompted

When players complete registration, North Star FC Staff will periodically log in to approve and officially add players to the team roster. Let your players know it may not be immediate.

New benefits this season:

- Digital waiver collection
- Automatic tracking of yellow/red cards
- Weekly printed rosters for referees
